Why TRUST Consulting Group?

- There is no phone call
- Electronic submission via McDonalds "white page".
- Improve your cash flow with our annual billing program.
- Simplified form for your managers to use and your employees to understand.

Improve your Cash Flow.

Annual Billing

- If your current WOTC provider bills you on a regular basis - either weekly, bi-weekly, monthly, or quarterly - then you're paying **today** for a tax credit you might not fully use until **next year!** Can you really afford to tie up your cash that way?
- TRUST Consulting is one of a few companies offering **an annual billing plan**, which allows you to easily manage your cash flow all year long.
- The day your taxes are due is the day our invoice is due.

Pay only for the tax credits you use.

- Does your current WOTC provider bill you for all your tax credits, even though you can't use them all? Some of our clients came to us after they paid for WOTC credits they were billed for - but didn't fully utilize for more than three years.
 - Why would you pay for a service for which you might not see a benefit for several years? TRUST **only bills for the WOTC credits used**, and works with your CPA firm to make sure that the credits are properly carried forward.
- 

Simplified Forms Mean Higher Positive Responses (and more certifications).

How do you currently fill out your WOTC forms?

If the answer is with a pen and paper, then your current consultant is asking too much of you!

TRUST Consulting has a **simplified electronic process**.

Still want to use paper, TRUST has a **two-page form** written in plain English. We take our simple two-page form and turn it into a six page official document in house.

Since the questions are presented in a format that is less intimidating, and one your employees can actually understand, they are more likely to give a positive response.

It's **less work** for everybody at your office and **more money** for you.
